aesthetic, 70W LEDs are housed within a diffuser which halos the central fan blades. The 30W fan is fitted behind a grid like cover with an intricate optical illusion cut-out pattern. This range's ability to set different intensities and speeds, means it can be installed in larger areas, such as living rooms, kitchens or open offices. The dimmable colour temperatures and different DC motor speeds can both be controlled either by the remote supplied with the item, Bluetooth APP or Alexa and Google voice control. For further adaptation across alternative decorative motifs Tibet features four colour options; black, black/gold, white, silver and wood/white.
