Himalaya

Following the overwhelming success of the Aliso range Mantra have expanded on their break through design of ventilation lighting with their collection, Himalaya. With a new aesthetic design the 35W fan and LEDs are housed with an outer metal frame structured to mimic an industrial fan available in three sizes. This range's ability to set different intensities and speeds, means it can be installed in larger areas, such as living rooms, kitchens or open offices. The dimmable colour temperatures and different DC motor speeds can both be controlled either by the remote supplied with the item, Bluetooth APP or Alexa and Google voice control. Himalaya now includes remote controlled ceiling lights without the fan for those who love the design but don't require the added ventilation.
